Accessories & Options

Roll Guards & Corner Guards

Auramo Roll Guards and Corner Guards offer heavy-duty protection for valuable stored paper.

Roll Guards

Roll Guards are ideal for the protection of valuable paper rolls while in warehouse storage. They are best used on aisle corners and other high-traffic locations.

Roll Guards are molded from high-quality, construction-grade fiber glass into a unique one-piece design. They are capable of with-standing the damaging bumps from lift trucks and lift truck load that can cause costly paper damage.

Two cut-out hand-holds make Roll Guards easy to handle and position on paper roll of various diameters.

Simplicity of design facilitates easy storage.

Auramo Roll Guards are now aviable also for jumbo rolls.

Corner Guards

Corner Guards offer excellent protection for stored products in warehouse, especially on aisle corners and other high-traffic areas.

Corner Guards, like Roll Guards, are molded from light-weight, construction-grade fiber glass into a durable, single-unit design.

Two cut-out hand-holds make Corner Guards easy to carry and position on aisle corners. They are capable of with-standing the damaging bumps from lift trucks and lift truck loads.

Bright red color enhances value by keeping lift truck operators alert and cautious at aisle corners.

Simplicity of design facilitates easy storage.

AURAMO

Roll Guards & Corner Guards - Heavy-duty protection for valuable stored paper

Roll Guards

Technical Specifications:

Roll Guards - Number 99000A

Height	40”
Curved width	63”
Approximate weight	22 Lbs.
