# Test Stand - Clamping force measuring device

Auramo Test Stand is a heavy-duty clamping force measuring device designed for warehouse and paper terminal installation.

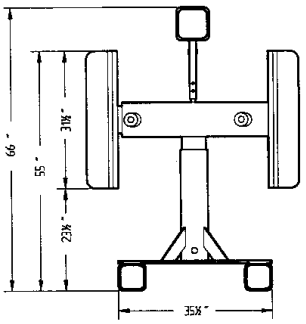

Test Stand enables fast and user-friendly clamping force monitoring. It can be used for the following purposes:

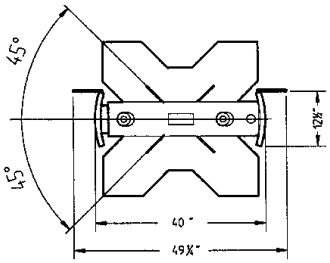

- Clamping force testing and troubleshooting
- Clamping force adjusting
- Testing and adjusting of four-stage pressure relief valves

Regular clamping force testing reduces paper roll damage caused by under - or overclamping and enhances overall clamp attachment operation efficiency and safety.

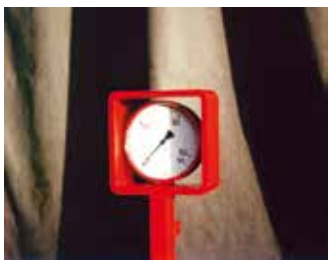

## Display Options

*Analog display*

*Order code: 321564.01*

*Digital display*

*Please consult Bolzoni Auramo.*

## Technical Specifications:

- Upper frame of the stand rotates ±45…, thus allowing easy lift truck access to the stand.
- A built-in test cylinder allows max. 160 kN clamping force to be measured.
- Large and clear display shows the clamping force value directly in kN units. No calculation necessary.
- Weight 425 kg (938 Lbs.)
