Fork Positioners

Models FFP

The Bolzoni FFP model fork positioner provides fast and accurate fork positioning as FEM/ITA fork carriers sliding on a chromed bar in order to use the standard forks on the truck with no modification. Visibility strength and versatility are unchanged.

The forks carriers show an oversized structure and consequently this model can be considered the “heavy duty” version of the FR model.

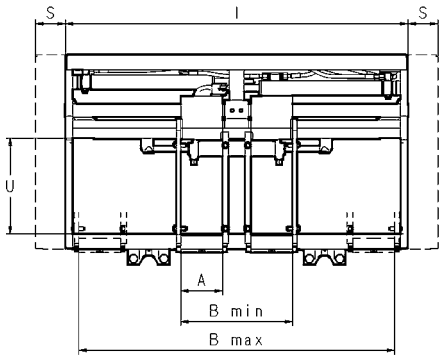

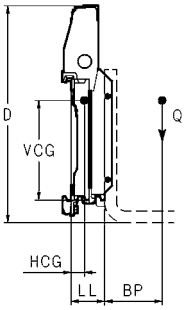

BOLZONI

Fork Positioners with Fork Adapters

Models FFP *(Sideshifting)*

Range: 5,500 - 10,000 Lbs.

- Separate sideshift.
- Same features as corresponding FP...models, but with ITA fork carriers.
- Standard forks of the truck can be used without modification.
- Fork carriers sliding on a chromed bar with bushings.
- Excellent visibility, strength and versatility.
- Accurate fork positioning, operated on a round chromed bar.

Notes:

- Two hydraulic functions required.
- Total sideshift stroke 8".
- Forks are not included in the attachment price.
- Weight and center of gravity are given without forks.
- Delivered without forks. Original lift truck forks can be fitted without any modification.
- Not for handling cylindrical loads. See model FP.

Options:

- Flow divider valve.
- Pressure relief valve.
- Load backrest.
- Fork support width 8.0" (available for model FFP49 only).
